

14th International Symposium on the

Biology of Actinomycetes

ISBA14

26th - 30th August 2007, The Sage Gateshead

Keynote lectures

- Professor Sueharu Horinouchi: The A Factor Story
- Professor Jeff Errington: Cell Division

Themes

- Evolution & comparative genomics
- Combinatorial biosynthesis
- Systematics and diversity
- Streptomyces physiology and genetics
- Pathogenic actinomycetes
- Ecology
- Cell envelopes
- Marine actinobacteria
- Exploiting metabolic diversity in Biotechnology

*Early bird registration
15th April - 15% reduction
15th May - 10% reduction

Call for Abstracts -
closing date:
15th May 2007
